Press Release

In throes of Make in India Revolution – Gulshan's On-site PCC

We are proud to announce the successful replacement of imported PCC with the commissioning of the third On Site PCC plant at ITC, Tribeni, Kolkata. The quality of Onsite PCC has been well appreciated by ITC management and ITC has now replaced expensive imported PCC used in cigarette paper manufacturing with the PCC produced from Gulshan Onsite Plant. This will bring substantial savings to ITC on discontinuing the expensive imported PCC.

Mr. Sanjay Singh, CEO-(PSPD) of ITC felicitated Dr. C. K. Jain, CMD and whole core project team members of the company at the function organized by ITC on this grand achievement. He also said that this is an exclusive on site plant in India which is capable to produce PCC for its use in finest cigarette and writing printing paper respectively. He further emphasized that ITC is now Brand Ambassador for Gulshan's On Site PCC plant activities. Onsite PCC produced by company is truly a **'MAKE IN INDIA'** product replacing the imported PCC.

Company is also crossing the country's territorial boundaries and shall be commissioning two On Site plants in Bangladesh, each of PCC and WGCC. The export of the plant is already in progress and start up of both these plants is expected early in next year.
