C. Weighted Average Fair Value/Exercise Price of Options granted during the year:

Particulars	Weighted Average Fair Value	Weighted Average Exercise Value
a. Exercise price equals market price	-	Rs. 328/- (Average Buying price of shares of the Company from the BSE/NSE market at the time of purchase of shares by Trust through open market before respective grant)
b. Exercise price is greater than market price	-	
c. Exercise price is less than market price	-	

D. Method used to account for ESOPs:

The compensation cost of stock options granted to employees is calculated based on average buying price of shares from the BSE/NSE market. The profit arrived at the time of exercise of the options by grantee(s) would be treated as a part of employee compensation in the financial statements.

E. Method and significant assumptions used to estimate the fair value of options granted during the year:

Not Applicable, the compensation cost of stock options granted to employees is calculated based on average buying price of shares from the BSE/NSE market.
